

Unlock Endless Possibilities by Learning to Code

SCRATCH CODING FOR BEGINNERS

Suitable for Ages 7-9

INTRODUCTION

Are you ready to dive into the exciting world of coding? Look no further! This workshop is best suited for learners ages 7 to 9. Explore the fundamentals of programming through the fun and interactive coding platform, Scratch.

WORKSHOP HIGHLIGHTS

- ✓ **Expert Guidance:** Learn from experienced coding and robotics instructors passionate about making coding fun and accessible.
- ✓ **Hands-On Learning:** Engage in interactive coding exercises that reinforce key concepts.
- ✓ **Creativity Unleashed:** Express yourself through personalized stories, games, and animations.

WHY SCRATCH?

Scratch is a visual programming language (**MIT curriculum**) that makes coding accessible and enjoyable. With a drag-and-drop interface, you can create interactive stories, games, and animations without any prior coding experience. It's the perfect way to turn your ideas into reality!

WHAT YOU'LL LEARN

- ✔ **Scratch Basics:**
Understand the building blocks of Scratch programming.
- ✔ **Sprites and Backdrops:**
Create characters and backgrounds for your projects.
- ✔ **Coding Concepts:**
Learn how to put together a story with sound and music effects in a beginner-friendly environment.

WHY LEARN CODING?

- ✔ **Boosts Problem-Solving Skills:**
Develop logical thinking and problem-solving abilities.
- ✔ **Encourages Collaboration:**
Share your projects with a global community of young coders.
- ✔ **Builds Confidence:**
See your creations come to life and gain confidence in your coding abilities.
